Special Thematic Masterclass Sessions

Inter-Institutional Quizzes on Cardiac Procedures

Tips & Tricks for Final Examination for Final Year DM/DNB Students

Supported by

# About the Organization

The Centre for Chronic Disease Control (CCDC) is a New Delhi-based non-profit organization established in December 2000. Its mission is to tackle chronic diseases in developing countries through:

- **Knowledge Generation:** Informing policies and empowering prevention and control programs.
- **Knowledge Translation:** Bridging research and implementation gaps via analytic work, capacity building, advocacy, and educational resource development.

In 2022, CCDC established the Centre for Bridging Inequities in Digital Health - BRIDGE Centre for Digital Health to promote digital healthcare equity by developing equitable digital health solutions, addressing health disparities, and advocating for universal health care.

# Why Join Masterclass?

**Monthly Webinars**  
once every month on Friday/Saturday evenings

Refine your  
**Clinical Skills**

Gain insights on real-world  
clinical scenarios handpicked by the
